

SPI 387: Education Policy

**Week 5 Precept (Q&A
Edition)**

Golann (2015) Q1

- How does Golann define a 'no-excuses school'?

Golann (2015) Q1 (Answer)

- How does Golann define a 'no-excuses school'?
 - Extended instructional time and longer school year
 - Frequent standardized testing
 - Highly structured disciplinary system
 - Data-driven instruction
 - Ongoing professional development for teachers

Golann (2015) Q2

- Using Brighthouse, what goods/values are emphasized in a 'no-excuses school'?

Golann (2015) Q2 (Answer)

- Using Brighthouse, what goods/values are emphasized in a 'no-excuses school'?
 - Economic productivity prioritized; students shaped as 'worker-learners'
 - Equal distribution principle: identical standards for all
 - Independent values: discipline and deference to authority

Golann (2015) Q3

- According to Paglayan and Labaree, what outcomes are emphasized in a 'no-excuses school'?

Labaree, “Public Goods, Private Goods” (1997)

Three competing goals of education:

- 1) Democratic Equality: prepare citizens, promote common good.
- 2) Social Efficiency: train workers for the economy.
- 3) Social Mobility: give individuals credentials to get ahead.

Paglayan, Raised to Obey (2024, Ch. 1)

- 1) Mass schooling historically designed less to empower and more to secure social order.
- 2) Aimed to produce obedience, docility, and loyalty to the state.
- 3) Origin story of primary schooling = a tool of state-building and social control.

Golann (2015) Q3 (Answer)

- According to Paglayan and Labaree, what outcomes are emphasized in a 'no-excuses school'?
 - Paglayan: emphasis on maintaining social order
 - Labaree: focus on economic productivity

Golann (2015) Q4

- What are the tradeoffs of the 'no-excuses' model?

Golann (2015) Q4 (Answer)

- What are the tradeoffs of the 'no-excuses' model?
 - Benefits: higher test scores, potential mobility for disadvantaged students
 - Costs: autonomy, democratic competence, and creativity are underemphasized

Harvey (2023) Q1

- Comparing Truman and Brighton: what goods are emphasized in each?

Harvey (2023) Q1 (Answer)

- Comparing Truman and Brighton: what goods are emphasized in each?
 - Truman: personal fulfillment, autonomy, parents' interests
 - Brighton: economic productivity, discipline, bounded futures

Harvey (2023) Q2

- What are the tradeoffs between these two models?

Harvey (2023) Q2 (Answer)

- What are the tradeoffs between these two models?
 - Truman: fosters confidence but undermines collaboration
 - Brighton: builds discipline and collaboration but restricts autonomy

Harvey (2023) Q3

- What racial and gender differences did Harvey observe?

Harvey (2023) Q3 (Answer)

- What racial and gender differences did Harvey observe?
 - Truman: Asian American girls pressured to be less shy
 - Brighton: poor and Black students more often labeled 'bad'

Harvey (2023) Q4

- How do Harvey's findings connect with Golann's?

Harvey (2023) Q4 (Answer)

- How do Harvey's findings connect with Golann's?
 - Both describe heavy discipline for low-income Black students
 - Both highlight limited opportunities for autonomy or democratic competence

Khan (2015) Q1

- What were the intended outcomes of the boarding school Khan studied?

Khan (2015) Q1 (Answer)

- What were the intended outcomes of the boarding school Khan studied?
 - Secure admission to elite universities (e.g., Princeton, Harvard, Yale)
 - Maintain elite pipelines through admissions connections
 - Transmit privilege through culture, networks, and prestige

Khan (2015) Q2

- How do these outcomes map onto Brighthouse's framework?

Khan (2015) Q2 (Answer)

- How do these outcomes map onto Brighouse's framework?
 - Goods: economic productivity, parents' interests, prestige
 - Distribution: adequacy for attendees only
 - Tradeoff: less attention to equity and democratic values

Khan (2015) Q3

- How do Khan's findings connect with Labaree?

Khan (2015) Q3 (Answer)

- How do Khan's findings connect with Labaree?
 - Both emphasize pursuit of social status as an educational good
 - Elite schools reproduce hierarchies rather than reduce them

Cohodes & Roy (2024) Q1

- What does lottery-based research show about charter schools?

Cohodes & Roy (2024) Q1 (Answer)

- What does lottery-based research show about charter schools?
 - Charters raise math and ELA scores for disadvantaged urban students
 - Some evidence of longer-term benefits (college, civic participation)
 - Evidence mostly from oversubscribed urban contexts

Cohodes & Roy (2024) Q2

- Which goods are charters promoting, and who benefits most?

Cohodes & Roy (2024) Q2 (Answer)

- Which goods are charters promoting, and who benefits most?
 - Goods: academic achievement → economic productivity
 - Distribution: lotteries appear fair but advantaged groups often benefit more
 - Tradeoffs: achievement comes at the expense of autonomy and exploration

Cohodes & Roy (2024) Q3

- What are the tradeoffs of focusing on these goods?

Cohodes & Roy (2024) Q3 (Answer)

- What are the tradeoffs of focusing on these goods?
 - Benefits are uneven, least advantaged gain less
 - Strict discipline and achievement undermine creativity and democratic competence

Wrap-Up

- What are the key differences across these models?

Wrap-Up (Answer)

- What are the key differences across these models?
 - Golann: productivity ↑, autonomy ↓
 - Harvey: private vs public → fulfillment vs discipline
 - Khan: elite schools transmit privilege and networks
 - Cohodes & Roy: charters raise scores but uneven, with costs
