

Homework Policy and Guidelines

ORF 309 - Probability and Random Systems

Fall Semester 2025

1 Submission

Please proceed through the following steps to submit your homework:

1. Log into the canvas website of the class.
2. Click on the “Gradescope” tab.
3. Click on the ORF309 box.
4. Click on the corresponding homework under the Active Assignments tab.
5. Click on “Submit PDF”. We will NOT be accepting images (picture-to-scan apps are fine).
6. Click on “Select PDF”, attach your homework, and click on “Upload PDF”.
7. Assign questions to each page:
 - Step 1: Click on Q1.
 - Step 2: Click on all the pages that contain the answer to Q1.
 - Step 3: Repeat the previous two steps for all the other questions.
 - Step 4: Make sure that you have assigned the right questions to the right pages. If you have multiple answers on one page, then you can assign multiple questions to that page.
 - Step 5: Make sure that your pages are numbered correctly.
8. Click on Submit. Note: You can resubmit as many times as you want before the deadline.

9. Check that your document satisfies the following seven conditions:
- (a) The text is crisp and easily readable.
 - (b) The text on one side (recto or verso) of the page should not be visible on the other side of the page.
 - (c) The background is not too dark.
 - (d) The resolution is sufficiently high.
 - (e) There are no distracting shadows or background.
 - (f) The text is horizontal, not vertical, and not at an angle: pages should not be rotated, and sentences should not be written at an angle (if due to lack of space, please write on a new line or page).
 - (g) If you are submitting a processed picture, make sure the picture was taken straight down from the top, not at an angle.

2 Regrading

If you disagree with the grade you have received for a particular problem, please proceed in the following way:

1. Click on the question whose grading you are willing to contest.
2. Write the justification for your request in the pop-up dialog box.
3. Click on “Request a Regrade” to send.
4. The grader will respond to your request, and in case of a justified reasoning, they will change the grading by applying the relevant rubrics and/or a point adjustment.

3 Policy

Please see below the homework policy and good practice guidelines:

1. The homeworks will be due every **Friday at 11:59 PM sharp**.
2. You are allowed to collaborate, but each student is expected to write up her/his own solutions.
